## TESTIMONIALS

Events like GAFA creates rare ecosystems where architects, fabricators, manufacturers can exchange not only for business cards but also for vision and the future so this collaboration will direct the industry to certain directions.

**Wilson Tan**

Vice President of Himalaya Abadi

We find GAFA 2025 is an excellent platform to actually meet designers, architectures and contractors so we also meet up some glass fabricators and all sorts of solutions for our company

**Hugo Lim**

Sales and Business Development  
Manager, Smart Door Singapore

We're having so much fun at GAFA 2025 right now. It's really great to see the amount of people coming to the event, showing us support. Not only are other people in the construction industry but also from clients, from architects, from glass processors and fabricators as well so we're really having a great time right now

**Christian Jonathan**

Director of Pelitamaju Facades

I was really positively touched that everyone was so helpful and also the quality of the event was very good. We met a lot of people, we have done a lot of networking so we're very satisfied to have been here.

**Anna Tanyeli**

Director & Legal Compliance,  
LiSEC Austria GmbH.

I was quite happy of this event and people going around. Not only coming to our booth but I saw a lot of crowd and people joining the event. So this was something quite positive that I had.

**Matteo Patalocchi**

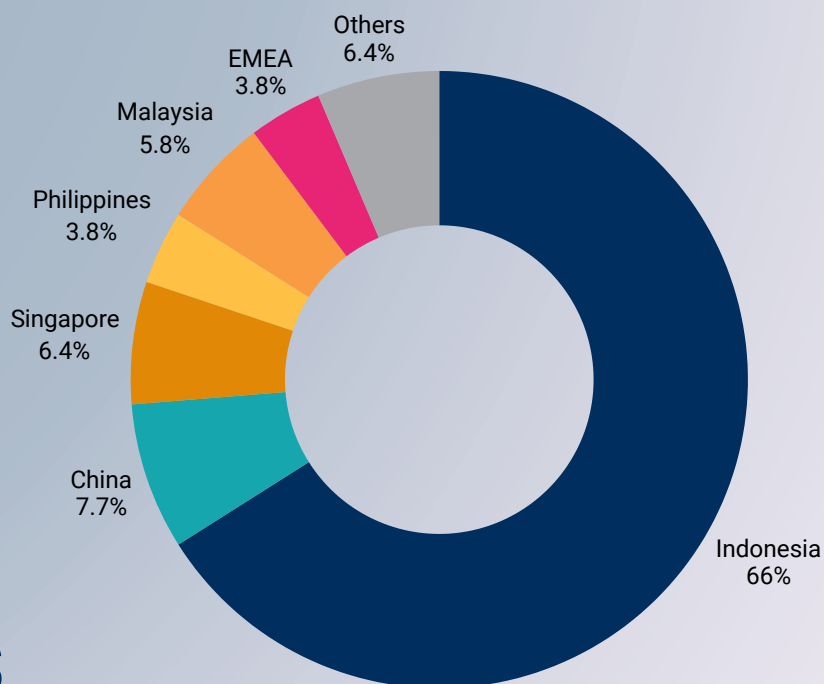

Export Area Manager & Marketing,  
Bovone Italy

More than

# 3,800 Visitors from over 31 countries and regions

## TESTIMONIALS

*Very interesting product and solution abroad so basically in Indonesia is a new product and also new solution in here (Indonesia is introduced to new products and solutions not yet introduced in the local market).*

**Ramdhani Gumilar**

Business Development Manager, PT. Citra Nusantara

*I'd say the event is running very nicely, all prepared well and there are so many exhibitors from around the globe.*

**Adichaya Raharja**

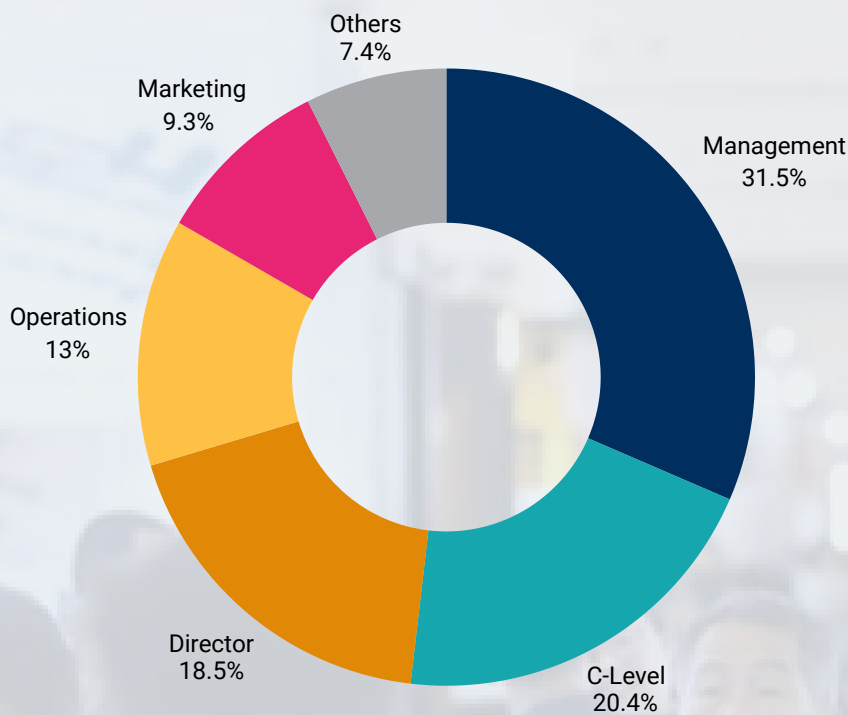

PT. Centro Sukses Gemilang Group

*I've never seen so many glass specialists anywhere together in my life, fabricators, manufacturers it's an amazing gathering of specialists from around the world. It's really eye opening.*

**David Mizan Hashim**

Founder and President of Veritas Design Group

## VISITORS BY BUSINESS NATURE

# HOSTED BUYERS, & GLASS ALLIANCES

This has been a very important nexus for us where we can gather all the suppliers from overseas, from China, from Europe with all the local manufacturers, all the local buyers and everybody is put under one roof we are all together as one big supply chain industry from cradle to the market where we can offer from machinery to the finest to the highest technology glass products.

**Putra Narjadin**

Member of the Advisory Board of the Indonesia Flat and Safety Glass Association (AKLP)

## TESTIMONIALS

My first impression when I come into this hall is that it feels very lively. There's a lot of exhibitors here. I've seen different exhibitors showing different type of materials and new materials here. I think it's quite interesting that you know what exciting things to see in this year's Glasstech

**Joe Lam**

President of the Malaysia Glass Association

Gafa is very important for our organization as it gives our members an opportunity to have a look at the latest trends and developments in the industry. It allows us to connect the different market players and learn more about how the different countries in ASEAN are working.

**Timms Choy**

The Philippines Chamber of Glass and Aluminum Industries, inc. (PCGAI)

Glasstech Asia and Fenestration Asia is a great platform for people in the glass industry across this region to connect and exchange ideas and promote innovation. And by doing so it helps our members to connect with the rest of the region and to inspire them to create more innovation

**Gan Pay Yap**

Chairman for Singapore Glass Association

Glasstech Asia 2025 is (a) good opportunity in the world. Jakarta Indonesia right now is (getting) better and better. We sold many perfect building and (have) many big opportunity in Jakarta.

**I-Chung Lai**

Taipei Glass Commercial Association

### GLASS ALLIANCES AND SUPPORTING ORGANISATIONS

# More than 43 speakers over 21 sessions.

# *GAFACONFERENCE*

## *ASIA FACADE AND GLASS CONFERENCE*

The Glasstech & Fenestration Asia 2025 Conference gathered architects, engineers, developers and industry leaders to explore design innovation, sustainable materials, advanced glass technologies and digital tools shaping Indonesia's buildings of tomorrow. In partnership with Indonesian Facade Association (PERAFI) and Indonesian Flat and Safety Glass Association (AKLP), the 3-day conference sessions that Harmonizes Nature and Architecture as well as shapes Indonesia's skyline and tomorrow's Vision.

*Congratulations to:*

**Wilson Tan**  
Best Pitch Award

## *INNOVATIVE PITCHING FORUM*

Designed to spotlight cutting-edge advancements in the glass and fenestration industry, the Innovative Pitching Forum is a dynamic platform gives exhibitors an exclusive opportunity to present their latest innovations to an engaged audience. More than a showcase, it is a premier networking hub where visitors, buyers, and exhibitors connect, explore, and gain insights into the latest market innovations, setting the stage for impactful industry growth. **We thank all speakers for their participation in making this segment successful.**

## *MEET & MATCH LOUNGE*

Powered by Jublia, the Meet and Match Lounge is your dedicated space for high-impact networking at Glasstech & Fenestration Asia 2025. By downloading the official event app, attendees can easily arrange meetings, manage their schedule, and use the Meet and Match Lounge as a central hub for meaningful discussions. Make the most of your visit by connecting with the right people at the right time, all through our convenient app.

# Gafa 2025 COMPETITIONS

## GLASS GLAZING COMPETITION

The Glass Glazing Competition was a live, hands-on challenge highlighting craftsmanship, technical skills, and safety practices of façade installation teams, with participants competing in real-time, timed tasks.

**We thank all our participants and congratulate our top 3 winners:** PT Polarela Fasalindo, PT. Alwindo Nusantara and PT. Fasil Intra Cipta

*Congratulations to:*

**PT. Polareka Fasalindo**  
1<sup>st</sup> Winner - Glazing Competition

## FUTURE ARCOLOGIES

Architects, designers, engineers, and students are invited to reimagine Indonesia's façades using advanced materials, energy-efficient strategies, and building-integrated photovoltaics (BIPV), promoting sustainability and innovation in tropical urban environments.

**We thank all our participants and congratulate all our winners.**

*Congratulations to all our winners:*

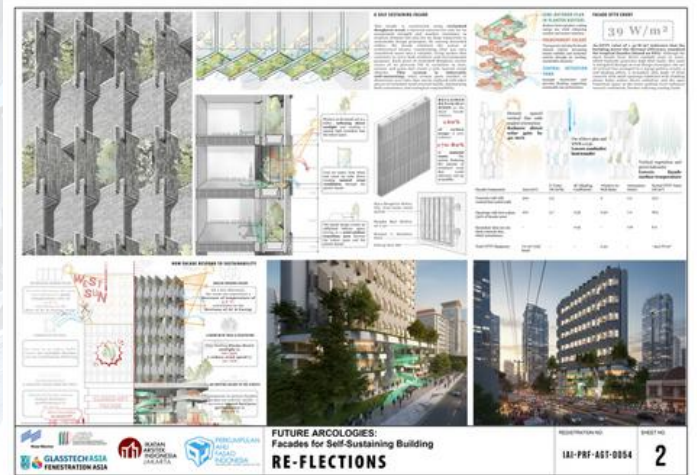

# FUTURE ARCOLOGIES TALENT SHOWCASE PROFESSIONAL CATEGORY

## 1 RE-FLECTIONS

BY DADI PRASOJO | CORELLIA RACHEL FARIAN HIDAYAT

This year's winner for the Future Arcologies Professional Category is a Facade for a Self-Sustaining Building - RE-FLECTIONS show that facade design is more than just a mere "skin" - but mirrors the life and spirit of the people within.

## 2 MASS TIMBER HYBRID FACADES

BY JESSICA | HAGANI GINTING | KELVIN ANDREAN

The First Runner Up Facade Design is a Mass Timber Hybrid Facades concept, highlighting a carbon responsive design for Jakarta's Urban Tropics. This design fuses practicality, sustainability and beauty within a single building design.

## 3 SELF-INTEGRATIVE ACTIVE VERTICAL TURBINE FACADE

BY AR. REZA FARMANDA S.T., M.T., IAI | SITI NURUL HUDA S.ARS | SITI NURHAYATI S.ARS | TANTRI NURFADILAR GUNAWAN S.ARS

The Second Runner Up is a Facade design that highlights Self-Integrative Active Vertical Turbine Facade for Environmental Autonomy. The concept showcases an ecosystem that powers within the building, unravelling design ingenuity.

# FUTURE ARCOLOGIES TALENT SHOWCASE STUDENT CATEGORY

## 1 PAPER SLICE TOWER

BY MUHAMAD ABDUL AZIZ

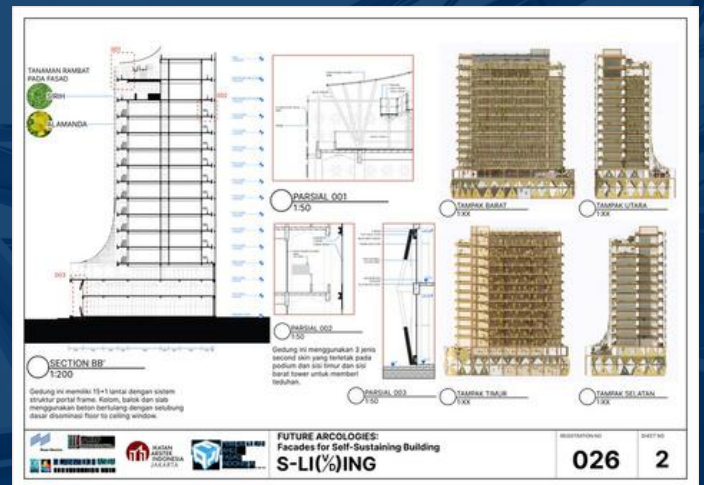

This year's winner for the Future Arcologies Student Category is a Paper Slice Tower concept. The concept combines design with practicality offering Facade that can battle urban heat featuring Eco-Manufacturing.

## 2 S-LI(V/D)ING

BY ACHMAD ABDURRAHMAN | ASUIRA NUROKTAVIAN MAKMUR

The First Runner Up Facade Design is S-LI(V/D)ING - highlighting a sustainable Biophilic Green Facade that features design elements of Indonesia's Batik as well as sustainable elements such as water catchment and solar power systems.

## 3 TERRA RESPIRA

BY NADYA JUANDANI

The Second Runner Up is a Facade design that blends Photosynthesis and Architecture - Terra Respira. The concept features a building that incorporates Biophilic elements making it a living Facade.

# *BEST BOOTH DESIGN AWARD*

The Best Booth Design Award is awarded to the booth that had the most creative and eye-catching design in our Glasstech and Fenestration Asia exhibition.

## *CONGRATULATIONS TO PELITAMAJU FACADES!*
