Notice on the Postponement of analytica China 2022 & labtech China Congress 2022

Dear Exhibitors, Visitors and Partners,

Thank you for your care and support to analytica China and labtech China Congress! As the current epidemic situation is still frequent and widespread, we must follow the relevant requirements from the Joint Prevention and Control Mechanism of the State Council. This means that we have to continue to implement the overall strategy of "preventing imported cases and resurgence of indigenous outbreak" and epidemic control measures of "avoidance of holding large-scale gathering, such as training, exhibition, and cultural performances". Due to this regulation, we must **reschedule analytica China 2022 and labtech China Congress 2022**, planned for November 14-16 and November 13-15. **The new date for analytica China and labtech China Congress, will be March 1-3, 2023, at Halls N1-N5 of Shanghai New International Expo Center.**

At this critical moment, it is our primary task to protect the health and safety of our exhibitors, visitors and partners and guarantee the exhibition results. We have been serving the analysis, biochemistry, diagnosis, and laboratory industry in China since 2002. The epidemic will not infringe the tough spirit and strong will of scientific research and innovation we have built together for the past 20 years. Let us look forward to the successful opening of analytica China in March! In the meantime, our exhibitor service, and the analytica China visitor communication will continue. On November 14-16, 2022, the former dates of analytica China, we will conduct marketing activities such as new product promotions through digital channel. We cordially invite all exhibitors and users to participate.

Kindly accept our sincere apology for any inconvenience caused by this change, but your safety is our top concern. Thank you all for your continuous support. We do hope that you will receive this information in time to adjust accordingly. To keep the time and effort that will incur due to the rescheduling as low as possible, the hall occupancy will remain unchanged. This means that is not necessary to reschedule your stand. If you have any questions, please feel free to contact us.

We wish you all the best and good health!
